Quick Start Guide

INSTEON® SwitchLinc Dimmer
Model: 2477D, 2477DH

Tools Needed

- Slotted screwdriver
- Philips screwdriver
- Voltage meter
- Wire cutter/stripper

Installing SwitchLinc (typical 2-way circuit)

Note: see manual for 3-way and other advanced installations

Installation should only be performed by a qualified electrician or a homeowner who is familiar and comfortable with electrical circuitry. If you have questions, consult an electrician or call the INSTEON Support Line at 866-243-8022.

1) Turn off breaker/fuse and verify that the power is off
2) Disconnect wires from existing switch and prep all wires to be connected to SwitchLinc with ½" of bare wire on the ends
3) Connect wires per diagram
4) After ensuring wires are firmly connected and that there is no exposed wire, gently place SwitchLinc into wall box and screw into place
5) Turn on breaker/fuse
   After a few seconds, SwitchLinc and load will turn on
6) Test by tapping SwitchLinc paddle on/off
   Load will turn on and off

Make SwitchLinc a Responder

Control SwitchLinc from another INSTEON device.
1) Press and hold controller button until it beeps
   Controller LED will start blinking
2) Press and hold SwitchLinc on or off button to adjust load to desired brightness (or off) when scene is activated
3) Press and hold SwitchLinc set button until it double-beeps
   Controller will double-beep and its LED will stop blinking
4) Test by tapping controller button on and off
   Connected load will return to the state set in step #2

Make SwitchLinc a Controller

Use SwitchLinc to control other INSTEON devices.
1) Press and hold SwitchLinc set button until it beeps
   SwitchLinc setup LED will start blinking green
2) Turn responder on (or any other state such as on 50% or even off)
3) Press and hold responder set button until it double-beeps
   SwitchLinc will double-beep and its setup LED will stop blinking
4) Test by tapping SwitchLinc on/off
   Responder load will respond appropriately

Brightness LEDs — ON (hold to brighten)
Setup LED — OFF (hold to dim)
Set button

Line — Black — Red — White — Copper — Ground — Neutral — Load
